

34 FOOT 4 ROOM PRODUCTION HONEYWAGON

This unit provides four large dressing rooms with sinks and toilets, plus two full crew bathrooms.

There are 45 feet of wardrobe racks throughout. Included in the largest room is a hair station with shampoo sink and two make-up stations with fully lighted mirrors. Another ideal feature of this unit is the connecting dressing rooms in the middle! They are perfect either as two separate rooms, a large Star room with two fold-down work tables, 28 feet of overhead shelf space and wardrobe racks below. Also note the built-in ironing board and full-length mirror. The rear dressing room has two fold-down tables and can act as a mini production office. The entire unit is fully air-conditioned, of course.
