

# 40 FOOT ALL IN ONE PRODUCTION TRAILER

This unit really does have it "All-In-One!"

Desk space for six! Two separate cellular lines with phones throughout, fax and copier, of course! DSL Internet connections both by satellite and cellular! 200-channel DirecTV! The rear area can be sectioned off as a large, two-station makeup area or two-desk office space! The front room is a very plush client/director/star lounge (with lighted makeup and private bathroom). It can also be a great wardrobe fitting/work room. The interior is white with burgundy and biscuit cabinetry, bright fluorescent or airline-style lighting! Two restrooms outside in back.

In other words, it's the ideal unit for any commercial production!
